The I AM University on Earth is patterned after the I AM University in Heaven so you can obtain much of the same wisdom & knowledge consciously, not just in your soul body, or through your split-off selves, or through your bilocated consciousness => study entirety of I AM University work on a conscious/earthly level!

I. DESIGN & BLUEPRINT OF I AM U CITY COMPLEX : by Metatron; built by the Elohim

SIZE & SUBSTANCE & COLORS & ROBES : about the size of Los Angeles; = whole Spiritual city in itself; entire building is made of a crystalline substance and has a luminescent glow of violet & pink => when all souls on Earth achieve their 12th level of initiation, the I AM U building will turn into gold => so the building, like people's clothes, reflects their level of consciousness & Spiritual development; all the people attending wear robes of different colors => color & quality of the robes people wear are reflective of their level of Spiritual & consciousness development => one is not allowed to wear a robe that is beyond their level of evolution; like one's aura, one's clothes instantly II. reflect a person's level of Spiritual growth

ONE IMMENSE BUILDING COMPLEX IN THE CENTER OF THE I AM U => looking down from the sky it looks like the shape of "Star of David" or six-point star; stars = clear quartz crystal; center circle of star = amethyst crystal; in center of the star = dome; on special occasions the roof opens like the III. opening of a "lotus blossom"

ENTRANCE : as one enters the building one has to walk up 70 steps (7th initiation of liberation merged with zero or the infinite; also symbolic of 70 Names of Metatron); Roman-like columns at the front of the building with pictures of the Masters carved into the columns => carvings change for the building is alive; entrance doors = gold like the Golden Doors of Michaelangelo; entrance doors open into a huge conference room & meeting IV. hall => used for the largest auditorium
